## Perfect Health

The result of complete expression of innate intelligence in all parts of the body. Interference with this means disease.

The nervous system is the medium through which innate intelligence expresses itself in maintaining the metabolism of the body and the functions of its organs.

Chiropractic is proving that the cause of 95 per cent of disease is due to pressure on the nerve by a misaligned vertebra, thereby interfering with the normal expression of life force.

Remove this pressure by straightening the vertebrae and health results.

You can enjoy perfect health. Let me prove it.

## Theatres

### AT THE UTAH.

The great picture, "Bluebird," which was adapted from the screen from Maeterlinck's masterpiece, gave the audience at the New Utah theatre last night a most excellent sermon on life and philosophy without preaching. The picture is one of the kind that follows the witness from the theatre. It has a spirit that is able to speak. It is one of the many scenes and is so gripping that it moves to tears and laughter, many in the audience laughing one moment and coughing suspiciously the next.

The great philosopher told a wonderful story when he wrote the allegory that shows his conception of life and soul in all objects, animate and inanimate. It is a story so deep that the most profound thought may be applied to it by the adult who wishes to catch a glimpse of the invisible world of happiness all about him, and yet it is so simple, as told by the screen version, that a child can easily interpret it. That is the wonderful thing about the picture—the fact that it touches one of the deepest subjects, mingling psychology, philosophy and sentiment in showing that life is everywhere. And it is so beautifully done, the filming retaining the allegorical form of the great author in expressing his thoughts, that the very grandeur of it makes that beautiful which might otherwise be classed as sordid or morbid.

At the opening of the screen version, Miss Florence Fisher sang the song, "Bluebird," very effectively and won the applause of the audience. Miss Fisher has a pleasing way of interpreting the difficult piece, though the acoustics of the theatre are not good except near the front and the effect of the song might have been much better had the entire audience been nearer the singer. She will continue to sing during the three days the picture runs.

If hot air is any advantage to the military aviation program it ought to have plenty of what it needs.

Nora Bayes tells the Kaiser About those "Regretful Blues"

You'll enjoy hearing this vigorous, tuneful song just as much as "Our Nora" enjoyed singing it—and that's saying a good deal. A happy time will be had by all except the Kaiser—and we won't worry about him. On the back, "A Little Bit of Sunshine," another sturdy, cheerful song just made for Nora Bayes. A6038—\$1.25

## "The Yanks Started Yanking"

A rollicking tune, sung by Arthur Fields, with this irresistible chorus: "The Russians were rushin' the Prussians, The Prussians were crushin' the Russians, The Balkans were balkin' and Turkey was squawkin', Rasputin disputin' and Italy scootin', The Boches all bulled Bolsheviks, The British were skittish at sea, But the good Lord I'm thankin', The Yanks started yankin' and yanked Kaiser Bill up a tree!" A2528—75c

## "I'm in Love!"

It's Gus Van in a new character song that's a scream. He's got a bad case of love, and his description of the symptoms will keep you roaring from beginning to end. On the back, "How'd you like to be my Daddy?" another melodious gale of laughter by the Winter Garden favorites, the Farber Sisters. A2525—75c
